ENGINEERING GEOLOGY

Contents Volume 42 (1996)

Research papers

Mass wasting triggered by the 5 March 1987 Ecuador earthquakes
R.L. Schuster, A.S. Nieto, T.D. O'Rourke, E. Crespo, G. Plaza-Nieto 1

Prediction of ground vibrations caused by pile driving: A new methodology
D. Jongmans 25

Formation of south-facing bald mudstone slopes in southwestern Taiwan
H.W. Chang, Y.M. Tien, C.H. Juang 37

Full-scale field experimentation of a new technique for protecting mudstone slopes, Taiwan
D.H. Lee, K.G. Tien, C.H. Juang 51

Geotechnical rock-mass evaluation of the Anamur dam site, Turkey
A. Özsan, C. Karpuz 65

A comparative evaluation of cement and lime modification of laterite
D.O.A. Osula 71

An engineering geological appraisal of the Jamrani Dam Site, across the Gaula river in Kumaun Himalaya, India
R. Anbalagan, S. Sharma, T. Raghuvanshi 83

The distribution and geotechnical properties of loess soils, lateritic soils and clayey soils in China
G. Gao 95

Book reviews

Construction of Structures on Eluvial Soils, by V.B. Shvet — J.D. Nieuwenhuis 105

Geology and Environment in Britain and Ireland, by N. Woodcock — K.A. Czurda 106

Aggregates—Raw Materials' Giant, by G.W. Lüttig — B. Brattli 106

Special Issue: Advanced Techniques for Solving Groundwater Contaminant Problems

Preface
J. May, K.E. Kolm 109

Conceptualization and characterization of ground-water systems using Geographic Information Systems
K.E. Kolm 111

Conceptualization, characterization and numerical modeling of the Jackson Hole alluvial aquifer using ARC/INFO and MODFLOW
C. San Juan, K.E. Kolm 119

Application of a step-wise, integrated method of characterizing hydrologic systems using GIS: A site specific case study at an NPL site near Cheyenne, Wyoming
W.R. Talbot, K.E. Kolm 139

Integrated borehole logging methods for wellhead protection applications
F.L. Paillet, W.H. Pedler 155

Groundwater analysis using a Geographic Information System following finite-difference and -element techniques
P.E. Albertson, G. W. Hennington 167

Development of a predictive model for defining subsurface sand bodies
J.H. May, D.W. Schmitz 175

Test applications of a predictive model for delineation of fluvial sand bodies using geologically based calculations
D.W. Schmitz, J.H. May 187

Development of a groundwater modeling system for military installation restoration
J.P. Holland 205

Opinion Section

Development of the Caltrans deterministic fault and earthquake hazard map of California
L. Mualchin 217

Research papers
Lime stabilization of clay minerals and soils
F.G. Bell 223
Hydrological triggering conditions of landslides in varved clays in the French Alps
Th.W.J. van Asch, M.R. Hendriks, R. Hessel and F.E. Rappange 239
A comparison of the fabric and permeability anisotropy of consolidated and sheared silty clay
D.N. Dewhurst, K.M. Brown, M.B. Clennell and G.K. Westbrook 253
The Kostanjek landslide in Zagreb
B. Stanić and E. Nonveiller 269
Geotechnical characterisation of Obudu damsite, Obudu, south-eastern Nigeria
E.O. Esu, C.S. Okereke, A.E. Edet and E.E. Okwueze 285

Book review
Engineering Geology of Quaternary Sediments, edited by N. Regers
E.Y.F. de Mulder 301

Contents Volume 42 (1996) 303
